

I contacted Hi Tech in 2011 to replace our 17,000 sq ft office building in Eden Prairie. I had two other bids and not only did Hi Tech provide the lowest with a HIGHER grade roof than the other companies they were the most responsive and professional. The roof was completed quickly and professionally with no business interruption. The roof had many leaks continuously through the spring and winter and since it has been replaced we have not experienced any problems. Our commercial real estate broker saw the quality of the roof and has asked for Hi Tech's contact information for referrals for other clients who need roof repairs/replacement. Thanks Hi Tech for professional work that saved us thousands of dollars as well!

Sincerely,

Brandon T. Swartz EA
